

We're proud to announce that from this day onwards, 'Van Amelrooy Productions' is no longer part of Neferon Holding, and thus acting independently. 'Andyva Music', the music division of this company, has officially been founded today.

Also newsworthy: 'Andyva Music' has signed an exclusive two-year collaboration with London Bureau Communications.

London Bureau Communications will provide PR strategies as well as agency services for artists, and invaluable language coaching.
